B07902126

Public Score	Private Score
0.83333	0.83263

The methods I used to pass the strong baselines include:

1. Add random factor in transform layer.
2. Use inception_v3 model.
   (reference : https://www.jianshu.com/p/cc830a6ed54b)
3. Do semi-supervised learning on trained once model.
4. Do ensemble voting to good results produced during tuning.
